Cabinet Member for Regulatory Functions

Part 1

Date: 31 July 2015

Item No:

Subject Law and Regulation Service Plan 2015/16

Purpose To seek a Cabinet Member decision to approve the Service Plan for 2015/16

Author Head of Law & Regulation

Ward All

Summary The Local Government Measure 2009 places a duty upon local authorities to: “make arrangements to secure continuous improvement in the exercise of their functions”. In order to discharge this duty, the Authority must be able to demonstrate the improvement made through its performance planning and reporting processes. Consequently, the Authority’s 2015/16 Service Plans are detailed planning documents underpinned by the following key principles:

- Defining outcomes for the service area
- Demonstrating progress (What will we do? What is the impact on service users? How will we evidence we have done it?)
- Aligning financial resources with planned activity
- Considering regulators recommendations

The Service Plan includes details of Service Area Outcomes, the key priorities for the service area and how they will be measured, the action plan details the actions for the year and other supporting information including risks, regulators proposals and equalities and welsh language requirements.

Proposal To approve the Service Plan 2015/16

Action by Head of Service

Timetable Immediate

This report was prepared after consultation with:

- Head of Finance - Chief Financial Officer
- Head of People and Transformation

Signed

Background

- The Service Plan has been prepared in accordance with the Council's guidance and is appended to this report.

Financial Summary

- The service plan provides information about the resources available to the service area, for example, staff, finances, income, investments etc.

Risks

- The service plan describes the top risks facing the service area and why they are significant.

Links to Council Policies and Priorities

- The service plan includes important threads about how the outcomes of strategies and projects link to the Improvement Objectives in the Improvement Plan

Options Available

Option 1 – to approve the Service Plan

Option 2 – not to approve the Service Plan

Preferred Option and Why

The preferred option is 1. The Service Plan provides important direction to the service area and demonstrates important links with the Council's Improvement Plan and other key Council plans and strategies

Comments of Chief Financial Officer

Service Plans have been constructed based on the approved Medium Term Financial Plan and as a result there are no financial implications arising from them. A major part of Service Planning in 2015/16 is the delivery of efficiency savings in the budget and those activities underpinning the savings form key strands of the Plans.

Comments of Monitoring Officer

There are no legal implications. The Service Plans have been prepared in accordance with the Council's performance management framework and reflect both statutory responsibilities and strategic objectives for the relevant services.

Staffing Implications: Comments of Head of People and Business Change

Any actions arising from the draft plan that have additional human resources implications will need to be the subject of a separate report to the Cabinet Member HR, People and Business Change.

In terms of performance management implications, the service plan has been developed in accordance with appropriate guidance. The guidance and associated service plan address the Wales Audit Office Proposals for Improvement that relate to performance management and setting clear outcomes and priorities.

Local issues

None

Scrutiny Committees

A verbal update will be provided at the relevant Scrutiny Committee meeting.

Equalities Impact Assessment

Set out in the Service Plan.

Law and Regulation Service Area Service Plan 2015/16

Part 1a: Introduction and Foreword

The main objectives of the Law and Regulation service area are:-

- (1) To ensure that the Council achieves its priorities lawfully and with propriety;
- (2) To provide high quality, efficient and cost-effective services which meet the needs of internal Clients, Councillors and external customers;
- (3) To ensure that the work of the Council, its corporate priorities and objectives are communicated in a positive, clear and balanced way;
- (4) To improve public health and consumer protection through the effective discharge of regulatory and enforcement functions, and the creation of a safe environment for Newport's residents, visitors and businesses.

The Head of Law and Standards is the Solicitor to the Council and statutory Monitoring Officer under Section 5 of the Local Government and Housing Act 1989. He is also the responsible officer for ethical standards and codes of conduct under the Local Government Act 2000. The Chief Legal Officer deputises for the Head of Law and Standards and discharges these statutory responsibilities in his absence. The Chief Democratic Services Officer is the designated Head of Democratic Services under the Local Government (Wales) Measure 2011.

The service area has consistently delivered a high level of high performance, as demonstrated by its balanced scorecard of performance indicators and the delivery of key outcomes and projects. The challenge for the next 12 months will be sustaining this level of performance against a backdrop of financial pressures and budgetary constraints, the demands of new legislation and the programme of change.

Although the budget has been stabilised in the short term, it will be necessary in the longer term to develop further efficiencies through collaboration and the greater use of technology, if the current level and standard of service is to be maintained and improved. At the same time, we need to ensure that the service is resilient and flexible enough to meet the demands of complying with new legislation, particularly the plethora of new legislation relating to local government reforms and the additional enforcement duties imposed by the Housing (Wales) Act and the Public Health (Wales) Act.

The transfer of Marketing and Communications and, subsequently, Public Protection to this service area, following the senior management review, provides an opportunity to explore options for greater integration of services, with greater synergy in areas of legal and public protection work and closer alignment of communications to the corporate governance process.

There are no formal collaboration or partnership arrangements in place for the delivery of any of the Services. Informal collaborative and joint working arrangements are in place with neighbouring authorities for shared Legal Services and Trading Standards. Informal arrangements are also in place for joint Scrutiny, with specific Joint Scrutiny Committees established for the EAS and Prosiect Gwyrdd.

Part 1b: Background and Overview

The Law and Regulation Service is part of the Corporate Services group and comprises six distinct sections, namely

- Legal, including Insurances and Local Land charges.
- Democratic Services, including Overview and Scrutiny and the Mayoralty
- Elections and Electoral Registration
- Registration of Births, Deaths and Marriages
- Public Protection.
- Marketing and Communications

These sections undertake a diverse range of statutory, professional and regulatory services, providing support for other service areas and Members of the Council and also providing some services directly to the public.

This includes the provision of a comprehensive Legal service, a corporate governance role in monitoring the legality and propriety of Council decisions and the provision of advice and support to Councillors in relation to their decision-making roles and their Scrutiny functions.

The Marketing and Communications Team provide a centralised communication and engagement service, to inform, educate and meet the

needs of all staff, local residents and key stakeholders, to promote services and enhance the Council's reputation.

The Public Protection Service undertakes a wide range of regulatory and enforcement work covering all aspects of the Council's statutory functions in relation to Environmental Health, Trading Standards, Animal Health, Licensing, Community Safety and CCTV.

Direct public services include Local Land Charges, Electoral Registration and the Registration Service for births, deaths and marriages.

Part 1c: Resources

Staffing and Budget.

The Law and Standards Service area employs **211 FTE** posts, and has a total net operating budget for 2014/15 of **£6,473,606**, made up as follows:-

Service	Expenditure £	Fee Income £	No. of Employees
Head of L&R	97,360		1

TOTAL	7,942,050	1,468,444	211
NET BUDGET	£6,473,606		

Over 85% of the net operating budget is comprised of staffing and employment related costs. There are further corporate elements of the budget that are held centrally, over which we have no control, such as Members Allowances and Insurance premiums. Less than 10% of the available budget is comprised of supplies and services.

A review will be undertaken of the structure and workforce within Marketing and Communications following the transfer of these functions to Law & Standards. A further review will also need to be carried out of the remaining staffing structures in the medium term as part of the “New Ways of Working” project, in accordance with the MTFP, and in the light of new legislative changes.

Budget Projections 2015/16 to 2019/20

	2015/16 £000	2016/17 £000	2017/18 £000	2018/19 £000	2019/20 £000

In addition to staffing resources, property assets include shared office accommodation within the Civic Centre and the Information Station (Licensing), the statutory Registration Office and Approved Premises at the Mansion House, Stow Park Circle, the Dog Kennels and Lodge at Stevenson Street, the Community Safety accommodation at Telford Street and the CCTV offices. A list of maintenance contracts, operational vehicles, furniture and equipment is set out the in service asset registers and individual Business Plans.

Part 2 – Customer’s needs and links to other plans and strategies (parts 2a and 2b)

Part 2a: Understanding our customers’ needs / Population demographics and considerations

Defining our customers	What do we know about their needs	What do we need to know to understand the needs of our customers better
Internal Service areas within the Council	Service needs are assessed and planned through annual questionnaires and time recorded case management information for legal work. Last year, 96.6% of those surveyed rated the Legal service as good or excellent. Where issues were raised, this was followed up with one-to-one meetings and service improvements agreed.	The need for professional support services are demand-led and require regular reviews and re-prioritising. Surveys are being undertaken to assess the changing demand for future legal work in the light of shared services and collaboration, so this can be factored into the delivery models for joint legal services

Members of the Council (elected and co-opted)	50 elected Councillors and various independent and co-opted members of Audit and Standards Committees and Scrutiny. Needs are assessed through annual training and development plans and through annual questionnaires and surveys. 86% rated the service as good or excellent last year. Where issues were raised, action was taken to improve the service	Individual annual Training and Development plans for Councillors will help to identify priorities for member support and training. Democratic Services Committee will be used as the vehicle for identifying the need for constitutional and governance improvements.
Service users of the Registration Service	Data is held in Registration Service records to show numbers of service users and to establish level of demand. Other general customer and population surveys such as Experian, UNA and Census assist with demographics and key characteristics, to establish the likely future demand for these registration services. Consultation with stakeholders was last carried out in September 2012 when views were sought from Approved Premise licence holders on the proposal to extend ceremony times.	More detailed customer surveys need to be undertaken at the point of access to establish where the current service can be extended and improved. Information about the service is available on the Registration service pages of the Council's website as well as brochures for Ceremony Services and "Tell Us Once". A Customer Feedback Scheme for complaints/ compliments/ suggestions will be accessible in paper format at the Mansion House, the Information Station or via the Council website.
Electors	The register of electors and Council tax records are used to establish the level of electoral registration. Annual canvasses are carried out to update the register. Data is also held locally and by the Electoral Commission to establish the turn-out at elections.	The change to Individual Electoral Registration and "on-line" registration has required a fundamental review of the service. Data-matching and personal canvassing has increased the level of registration on the register of electors to 107,000 prior to the last general Election

Solicitors, Registered Conveyancers and Local search agents	The Uniform Land Charges system records the volume of searches being submitted, the identity of the customers and turn-around times for completing the searches. Approximately 1300 written searches are processed annually and 99% of all searches are processed within 5 working days.	Further assessments will need to be carried out as part of a national initiative to develop e-Conveyancing and the demand for electronic searches on-line. Government proposals will involve the centralisation and transfer of statutory local searches to the Land Registry and this will necessitate changes in working practices.
Public Protection delivers a wide range of statutory regulatory functions covering the entire business community. The services comes into contact with everyone who comes into Newport and with people from much further afield who buy or use goods and services originating from the City.	The profile of service users and their public protection needs can be established from the data built up over many years from inspections and service requests and from information extrapolated from other council services. Smaller, local businesses require more support to comply and less advantaged residents generally require more assistance in tackling potentially exploitative contracts.	Dialogue will be maintained through Business forums such as PubWatch, Business Improvement District and the Landlords' Forum and via the Council's Business Support Team and by gathering intelligence from other Council teams and other regulators.

Part 2b: Links to Other Plans and Strategies

Corporate Plan

The Service plays a pivotal role in supporting front line services and facilitating the delivery of all the objectives set out in the Corporate Plan, in particular the vision for a Learning and Working City, a Greener and Healthier City and a Safer City. We will help to achieve a strong, healthy local economy through the delivery of key regeneration projects such as the City Centre redevelopment and in promoting social, economic and environmental well-being. Legal Services, Licensing, Environmental Health, Trading Standards and the CCTV Warden services are all instrumental in creating a safe environment for Newport's residents, visitors and businesses. Front line services are constantly striving

to secure improvements in the range and quality of services being provided and to respond to the changing needs of their customers

Single Integrated Plan – The work of the service area underpins the objectives of the One Newport LSB and the shared delivery of the Single Integrated Plan, particularly key projects in relation to crime and disorder, economic regeneration, health and well-being and community safety

New Legislation and Guidance - The objectives within the Service Plan are also dictated, to a large extent, by the requirements of new legislation and statutory Guidance, particularly the Local Government (Wales) Measure 2011, the Education (Wales) Act, the Social Services and Well-Being (Wales) Act 2014 and the Marriage (Same Sex) Couples Act 2013, the Housing (Wales) Act 2015 and the Public Health (Wales) Act 2015.

The Service Plan is supported by the following longer-term plans and strategies

- Business Unit Plans and Business Continuity Plans (Legal Section, Public protection, Democratic Services, Elections and Electoral Registration and the Registration Service)
- Medium Term Financial Plan
- Assets and Contracts Registers
- Communications and Marketing Strategy
- Housing Strategy
- Safer Newport and Disease Outbreak Plans
- Licensing and enforcement policies, including the Wales Defined National Enforcement Priorities

Part 4: Risk Management

Part 4: Managing and monitoring risk

Risk	Mitigation activity	Risk rating (high, medium or low)
Failure to meet increasing service demands and the requirements of new legislation due to budgetary pressures and the need to reduce staffing and other resources	Increased use of technology and increased fee income will assist in meeting budgetary pressures. However, key statutory services can only be sustained by discontinuing non-essential enforcement work and reducing all discretionary services to an absolute minimum.	High
Failure to delivery key projects on time and within budget would have a significant detrimental impact upon the regeneration of the City and the delivery of services	Key regeneration projects continue to be delivered in accordance with agreed timetables, although certain economic and financial factors are beyond the Council's control	Medium
The transfer of the local land charges function to the Land register could have a significant impact upon service delivery and a loss of revenue. The Council would have to maintain the statutory registers and also deal with the CON29 additional enquiries but the statutory fees would be payable to the Land registry.	The Government has already confirmed its intention to pass the necessary legislation and initial meetings have been held with the land registry to discuss the feasibility of the transfer and the compatibility of back-office systems. However, it is understood that funding may be provided to assist with the additional costs of the transfer process. There are no other mitigation measures that the Council can put in place.	High

Failure to communicate and engage effectively with staff, residents and other stakeholders affected by the change programme.	Clear promotional activity of the efficiency and change programme and its achievements using tools such as the Council's website, together with a process for inviting comments and feedback.	Low

Part 7b: Fairness and Equalities Impact Assessments

Review of handling of licensing applications

Otherwise, there are no major policies or service changes planned in Law & Standards for 15/16 which would require full FEIA's. All new budget proposals included in the Change/Efficiency programme will require an equalities impact assessment and legal input will be required to ensure that the public sector equality duty is being met and proper consultation and engagement processes have been undertaken. Equality Impact Assessments will be completed as required throughout the year if any potential service delivery impact arises or, as required, in connection with any budget savings.

Part 7c: Welsh Language

Bi-lingual registrations are routinely offered to Welsh speakers by the Registration service and arrangements made for appointments to be with Welsh speaking registration staff.

All signage and publicity materials in relation to the Registration Service are in English and Welsh.

Welsh-speaking Solicitors are able to provide a translation service for Education statutory notices in relation to Welsh medium schools.

The Council web site is being moved to the CMS system to comply with Welsh Language Standards Action Plan and all publications will meet the necessary bi-lingual requirements.

Translation of 2015- Licensing Act Statement of Policy

The Welsh Language (Wales) Measure 2011 Compliance Notice will also contain a number of requirements for the various services, including translation of Reports and Minutes as part of the democratic decision-making processes, bilingual correspondence and hearings.
