DL/CS 01/21

Newport City Council Residents Parking Policy

Options Considered/Reasons for Decision

The criteria and policies setting out how the Council implements and administers residents parking across the city were not available in one policy document. Therefore the report proposed the introduction of a single consolidated Resident Parking Policy document that would ensure information could be provided in a more efficient and coherent format to inform both residents and officers. The consolidation process also presented an opportunity to consult with residents and where appropriate, protected characteristic groups under the Equality Act 2010 and ensured that the policy continued to meet the needs of residents of a modern city. The report set out the nature of the consultation, its outcome and a resultant proposed change to the way we administer Carer Permits within the schemes. With the exception of the proposed changes around Carer provision, there were no proposed changes to current Resident Parking criteria or policies.

Decision

That the Cabinet Member for City Services approved the consolidation of a number of Council and policy documents to form a single policy document on the implementation and administration of resident parking and an amendment to the carer permit so that if a resident received care from more than one source, then a carer permit linked to the address rather than to a specific vehicle could be issued.

Consultation

Head of Law and Regulation (Monitoring Officer), Head of Finance, Head of People and Business Change

All members were consulted and provided with an opportunity to comment. Any comments received and response thereafter are set out in the report.

Implemented by: Head of City Services
