NCC Decarbonisation Standards Policy for Council buildings

Options Considered/Reasons for Decision

Newport City Council built environment stands as a pivotal component in achieving the Council's Net Zero 2030 aspirations, as outlined in our Climate Change Plan. Action was needed to establish a uniform approach that aligned with our carbon reduction objectives, and this was outlined in the attached draft policy.

By embracing the proposed policy (Appendix 1), Newport City Council could effectively prioritise low-carbon practices in our construction, retrofitting, and procurement processes moving forward.
