

Formal Council Questions and Responses

Date of publication: 12 September 2024

1 **Question to the Cabinet Member for Communities and Poverty Reduction : 2024/35 - Supplementary 2 Toilet Strategy**

Councillor Reeks asked:

Following a question raised by myself in April it was announced by the Leader at the end of May that Newport City Council's city centre Toilet Strategy would be updated and completed by the end of June. At the performance scrutiny committee meeting for Place and Corporate in July the issue was again raised as it was still not complete, and the target deadline had been missed. With a strategy still not released, and given it is a Welsh Government requirement for the strategy to be updated within a timeframe that has also been missed, can the Cabinet Member confirm exactly when residents can expect to see the updated strategy and feel comfortable about the availability of public conveniences across the city?

Councillor Drewett responded:

The toilet strategy is now published and available on the council website located here: [Local Toilets Strategy 2024 \(newport.gov.uk\)](https://www.newport.gov.uk/local-toilets-strategy-2024)
