Introduction & Background

The Well-being for Future Generations (Wales) Act 2015 requires all public sector bodies to set Well-being objectives in their Corporate Plans. The Act also requires that the Council delivers in a sustainable way and considers its principles the '5 Ways of Working'. Newport City Council's Corporate Plan 2017-22 has set four Well-being objectives that supports the delivery of Wales' Well-being Goals:

1. To improve skills, educational outcomes and employment opportunities;
2. To promote economic growth and regeneration whilst protecting the environment;
3. To enable people to be healthy, independent and resilient; and
4. To build cohesive and sustainable communities.

Newport Strategic Recovery Aims

At the start of 2020, Wales faced a Covid 19 pandemic which has impacted on the way which Newport Council and Adult Services delivers its services to communities. The Council's initial response was to protect frontline services, support the vulnerable in the community and ensure continuity of services. On the Council's road to recovery and reinstatement of services, Newport Council has established [Strategic Recovery Aims](#) that will enable the Council to learn from the impacts that Covid 19 caused, the new and emerging challenges that services face and the opportunities that have emerged from new ways of working. These Aims will support the Council's Corporate Plan and this Service Plan will support the delivery of these aims.

Adult and Community Services

Newport citizens represent a diverse group of people, and their social care needs are determined by a wide range of factors including age, physical and mental health and economic circumstances.

Challenges for adult and community services are that the population is growing and people are living longer. Therefore, we have to find sustainable solutions that will meet new demands in a climate of reducing budgets.

This requires new solutions that focus on early intervention and prevention, working in partnership with health to promote independence and encourage less reliance on statutory services. Third sector and independent providers deliver services on behalf of the Local Authority and we need to ensure all partners are delivering care and support in line with our strategic requirements.

The population of the City is unevenly distributed with the areas at the eastern and western edges, Marshfield, Castleton, Penhow, and Llandevaud, having geographically large electoral divisions with fewer numbers of people living in them. The north and east of the City is more heavily populated with Bettws, Malpas, Ringland and Alway wards having the highest proportion of the total population of the City.

Demographic trends generally predict increasing numbers of older people and decreasing numbers of younger adults. This is a National trend and has significant consequences for the future demand for health and social care services.

Social Isolation and loneliness are often triggered by the loss of family, friends, mobility or income, to which older people are particularly vulnerable. This can have damaging effects on physical health and mental wellbeing. There was an estimated 11,677 people aged 65 and over living alone in Newport in 2010, and this is projected to rise to 13,160 in 2025.

In order to effectively manage increasing future demand Newport City Council will need to offer preventative services that promote independence and self-reliance, working in partnership with Health to maximise opportunities for citizens to access support that will improve and maintain health and well-being. This shift will enable citizens to maintain their independence for longer and reduce reliance on statutory services.

We currently have approximately 1500 people in receipt of a care and support plan and receive care and support across a range of services. We also have a responsibility to ensure that those in our care are protected. Under Social Services and Wellbeing (Wales) Act 2014 we have a duty to ensure that all adults are protected from harm or abuse. Our Safeguarding measures in the Council places a duty on all officers and supporting services to report incidents where they believe an individual or group are at risk.

The pressures faced by the service area include:

- Reducing budgets
- Increase in population
- Increasing numbers of people over 65 and living alone

- Increase in numbers of people with a diagnosis of dementia
- Lack of supply of specialist dementia services
- Higher than average numbers of people living in circumstances defined as deprived
- Higher than average numbers of people experiencing poor health
- Recruitment and retention issues for social care staff

Finance

The Council’s budget for 2020/21 was agreed at [Council](#) on 27th February 2020. In 2020/21 Adult Services base revenue budget has been set as £49,261,000. For the financial year 2019/20 the budget for Adult Services was set as £46,744,000.
