

Education Services

End of Year Review 2020/21

**Cabinet Member for Education Service –
Councillor Deb Davies
Head of Service – Sarah Morgan**

Introduction

This is the Education Service update on the progress being made against the objectives, actions, performance and risk for the period 1st April 2020 to 31st March 2021. Service plans have been designed to support the delivery of the [Council's Corporate Plan 2017-22](#) and the [Council's Strategic Recovery Aims](#) in response to the Covid-19 crisis. As one of the 44 public bodies, Newport Council must consider the Well-being of Future Generations Act in the delivery of its plans and the sustainable development principle of meeting our duty under the Act.

Long term		The importance of balancing short-term needs with the need to safeguard the ability to also meet long-term needs.
Prevention		How acting to prevent problems occurring or getting worse, may help public bodies meet their objectives.
Integration		Considering how the public body's well-being objectives may impact upon each of the well-being goals, on their other objectives, or on the objectives of other public bodies.
Collaboration		Acting in collaboration with any other person (or different parts of the body itself) that could help the body to meet its well-being objectives.
Involvement		The importance of involving people with an interest in achieving the well-being goals, and ensuring that those people reflect the diversity of the area, which the body serves.

To support the delivery of the Council's Corporate Plan 2017-22 and the Strategic Recovery Aims, the Education Service Plan 2020/21 focuses on the delivery of:

- **Wellbeing Objective 1** –To improve skills, education and employment opportunities; and
- **Strategic Recovery Aim 1** – Understand, and respond to, the additional challenges which Covid19 has presented, including loss of employment, impact on business and on the progress, achievement and wellbeing of both mainstream and vulnerable learners.

The 2020/21 Service Plan has seven objectives that are focused on:

Objective 1 – Improve school standards

Improving the academic attainment of Newport pupils is a commitment within the Newport City Council Corporate Plan 2017-2022. A key lever to deliver this commitment through the commissioning of actions to be delivered by the Education Achievement Service (EAS) and detailed in the EAS Business Plan 2020/21. The delivery of services is quality assured through NCC Education Services and is has oversight by the Joint Executive Group (JEG) and the EAS Company Board.

Objective 2 – Increase school attendance rates and reduce exclusion rates

The rates of school attendance at primary and secondary level have been demonstrated to link to the academic attainment of pupils. Therefore, raising the rate of school attendance and reducing the rate of school exclusions will support the NCC Corporate Plan 2017-2022 commitment to increase the academic attainment of pupils in Newport schools.

Objective 3 – Further improve pupil well-being and equity in education

How healthy, independent and resilient people are, has a wider impact on all other aspects of their life. Whether they can work, attend education, take part in social activities and contribute to their communities is all influenced by this objective.

Objective 4 – To further develop a motivated, capable and engaged workforce

To improve people's lives, we need a very strong leadership that is supported by motivated, engaged and committed staff who have the skills and calibre of the highest quality.

Objective 5 – Developing quality learning pathways and provisions

To ensure that all our children benefit from the best possible learning environments and opportunities throughout their school lives by improving the quality of education provision and access to a range of high quality learning pathways. This objective directly supports the Authority’s commitment to creating a thriving city with aspirational people.

Objective 6 – Improve learner voice in decision making

Strengthen opportunities at a local authority level for children and young people to influence decisions that affect them.

Objective 7 – Promote access to Welsh medium education

To deliver the strategic plans to develop Welsh-medium education further.

Objective 8 – School budgets are effectively managed

Through risk based support to schools, Education services will ensure budgets are managed effectively and where necessary take necessary actions to prevent overspending and ensure schools have the required controls and governance processes in place.

Executive Summary from the Head of Service

The Covid pandemic has had a significant impact on schools illustrated by periods of full closure or solely offering distanced learning, and the large scale operation of blended learning to enable pupils to continue learning when they are self-isolating as either individuals or as cohorts within a school.

Due to the disruptions caused by the pandemic performance measures related to pupil outcomes, exclusions and attendance have been suspended. Welsh Government introduced new methods of awarding grades for learners at both Key Stage 4 and 5 therefore comparison to previous years is not appropriate. Tracking post 16 learners destinations was challenged by the National restrictions in place due to the pandemic. The percentage of young people who were deemed to have an ‘unknown destination’ on leaving school was higher than in previous years. This data relates to young people who have left the area or did not respond to the destination survey. However, Newport data for young people in Education, Employment and Training above compulsory school age remains strong and among the best in Wales.

Despite the pandemic significant work has continued by schools and central education and most actions within the service plan have been progressed in addition to significant new work related to having established key worker and vulnerable learner provision throughout the year and facilitating the reopening of schools in line with Covid safety protocols.

The Service Plan for 2021/22 will address the limited areas of work not completed during 2020/21 in addition to supporting covid recovery and implementing actions related to Estyn recommendations from both the 2018 Local Authority Inspection and the “Local Authority and regional consortia support for schools and PRUs in response to Covid 19” thematic review. Covid-related priorities for education services during 2021/22 include supporting pupil wellbeing, the continued development and implementation of blended learning approaches and enabling learners to appropriately progress in their development of the literacy, numeracy and digital skills, alongside service priorities already established.

1	Provide support for schools with re-engaging pupils in their education following the period of enforced closure	Reduction in primary and secondary school rates of persistent absence.	Strategic Recovery Aim 1	1 st September 2020	31 st July 2021	30%	50%	All learners, including those that were previously shielding will be expected to return to their school from 12 April 2021. In most schools, a minority of pupils have not returned as a result of parental concerns about transmission of the Covid-19 virus. These concerns are initially followed up by the school. Concerns are then escalated to the Education Welfare Service after the school has made every attempt to engage the family.
2	Implement the NCC attendance strategy to reduce rates of persistent absenteeism.	Reduction in primary and secondary school rates of persistent absence.	Not Applicable	1 st April 2019	31 st July 2021	50%	60%	The Welsh Government removed the requirement for schools to set attendance targets for the 2020-2021 academic year. However, the monitoring of attendance remains an important practice for both the local authority and schools. The Education Welfare Service works closely with schools to engage families and pupils who have not returned as a result of parental concerns about transmission of the Covid-19 virus. The use of Fixed Penalty Notices or proceedings for non-attendance is not currently
