## **APPENDIX 9 – Equalities Issues**

## Budget Proposals and Fairness and Equality Impact Assessments (FEIA).

As part of the council's Equality Duties the authority is required to evidence its consideration of the impacts of decisions on people that share Protected Characteristics. The Welsh Government also intend to enact the Socio-economic Duty on the 31st March 2021 which requires the council to pay due regard, in its strategic decision making to the need to minimise inequalities of outcome arising as a result of socio-economic disadvantage. Although budget decisions will be made prior to this date, the council wish to act in the spirit of the Duty and have considered key 'domains' of inequalities of outcome in line with those included in the Welsh Index of Multiple Deprivation (WIMD) and the Equality and Human Rights Commission's Measurement Framework for Equality and Human Rights.
