Background

1. Corporate Assessment

As part of its governance arrangements the Council has a risk management strategy and a corporate risk register is monitored twice a year. Through the Corporate Assessment these documents were recognised by the Wales Audit Office although the conclusions of the Corporate Assessment were that risk management arrangements within the organisation are in need of improvement.

2. Risk Management Strategy

The Risk Management Strategy was agreed by Cabinet in September 2014. It was updated to reflect a revised approach to risk management and improved processes for identifying and escalating risk. Potential benefits of an improved risk management approach are improved decision making, avoidance of shocks and the ability to mitigate threats and take advantage of opportunities.

The strategy includes six key areas where risks are identified and managed:

- Decision Making Process
- Revenue and Capital Monitoring
- Change and Efficiency Programme
- Service and Improvement Planning
- Horizon Scanning Activities
- Information Risk Management

3. Role of Audit Committee

Since the introduction of the Local Government Measure 2011 the local authority's Audit Committee have a role in reviewing and assessing the risk management, internal control and corporate governance arrangements of the authority. Processes and Strategies about risk management should be reviewed by the Committee however the content of the risk register including setting and changing risks included in the register is *not* the role of the Audit Committee.

4. Risks updated in this report

A full review of the Corporate Risk Register has been undertaken during August 2015 and is included in the register below. As a result all of the risks have been updated, some of the risks have been closed and there are some new risks included in the register.

5. New Risks

The following risks are new in this revision of the Corporate Risk Register

- RISK 1: Legislative Requirements
- RISK 3: Capacity and capability to meet the councils objectives
- RISK 4: Budget Challenge
- RISK 7: City Deal

6. Closed Risks

The table below details the following closed risks from the Corporate Risk Register

Date	Risk	Closure Details
September 2014 - April 2015	<p><i>Risk Title: Delivering a Balanced Budget</i> <i>Risk Description: That the savings required to deliver a balanced budget in the following year cannot be achieved</i></p>	<p>In November 2014 this risk was scored as probability 1 and impact 1. This was because a balanced budget was drafted and being progressed through the council's decision making hierarchy. A balanced budget was approved by Cabinet and Council in February 2015 and this risk is now considered to be closed.</p>
September 2014 - June 2015	<p><i>Risk Title: Total Reward</i> <i>Risk Description: That the complex and contentious tensions inherent to the Single Status pay and grading review delay the project implementation.</i></p>	<p>The Total Reward project has now been implemented and any remaining issues and risks can now be managed at a service area level</p>
September 2014 - June 2015	<p><i>Risk Title: Information Governance</i> <i>Risk Description: That the council does not have adequate arrangements in place to protect the data in holds and that this results in significant fines and reputational damage</i></p>	<p>This risk can now be managed at a service area level.</p>

Links to Council Policies and Priorities

Robust risk management practices increase the chances that all of the council's priorities and plans will be implemented successfully

Comments of Chief Financial Officer

There are no direct financial implications arising from this report. The corporate risk register forms an important part of the governance and budget setting arrangements for the council and the risk register is used to guide the internal audit plan

Comments of Monitoring Officer

The Council's corporate governance arrangements are an integral part of the risk management strategy, in ensuring that all decisions are made lawfully and constitutionally and that all risks are identified, assessed and mitigated. The absence of successful call-in and legal challenges demonstrates that these arrangements are robust. However, as part of the review of the Constitution, improvements in the Report templates will be considered to further embed risk management principles within the decision-making processes. The Local Government (Wales) Measure 2011 required the Council to establish a stand-alone Audit Committee with statutory responsibility for reviewing and assessing the risk management, internal control and corporate governance arrangements of the authority. However, the identification of corporate risks, for inclusion within the risk register, is an executive decision for Cabinet.

Staffing Implications: Comments of Head of People and Business Change

There are no direct staffing implications arising from this report.

Risk management is a key element of the Council's improvement programme and the Administration's commitment to ensuring strong corporate governance and robust performance management.

Comments of Cabinet Member

Report author to confirm that the Cabinet Member has approved the report for consideration by cabinet.

Assessing Risk

An assessment of the likelihood and impact of risk is important to measure, compare and monitor risks to ensure efficient use of resources and effective decision making. This assessment is carried out using the risk matrix as described below.

Risk Assessment Matrix

A Corporate Risk Register will contain the high level risks for the whole authority. In order to differentiate between these high level risks a 5x5 risk assessment matrix will be applied. The matrix is shown below and further detail is included in appendix one.

Risks are scored using the scoring system for probability and impact and assigned a rating based on the tolerances set out in the matrix below

Risk Scoring

Very Low probability	1
Low probability	2
Medium probability	3
High probability	4
Very high probability	5

Current Action Status / Control Strategy

- Specific details and guidance for the Act is being produced. Officers are participating in Working Groups with Welsh Government to formulate and influence the guidance.
- Work is being undertaken on eligibility criteria
- Staff are being regularly informed of progress
- Possible implementation of the Act is planned for March 2015 onwards
- Big emphasis on prevention and early intervention
- Possible funding and support available for Welsh authorities for Social Services Act and Future Generations Act
- Strategic equalities group now overseeing implementation
- Project plan agreed and in place
- Translator employed and based with Caerphilly CBC to enable both authorities to work in partnership
- Extended provision of Welsh language courses provided by Caerphilly CBC
- Early engagement with Welsh Language groups in the area, providing support and expertise for the development of the Welsh Language Standards action plan (in development)
- Welsh Language included in Service Plans
- Increasing awareness of the Welsh Language Standards across the authority
- Cabinet report in September to become an early adopter of Future Generations Act
- Public Services Board development group in place

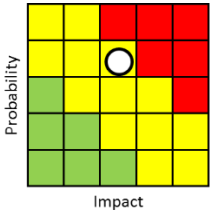

Responsible Officer: Chief Executive

Responsible Cabinet Member: Cabinet Member for Social Care and Wellbeing, Cabinet Member for Human Resources and Assets

Scrutiny Committee(s): (1) Community Planning and Development and (2) Learning, Caring and Leisure

RISK 2: Increasing Ageing Population

That an increasing percentage of the population are over 65 are this puts an increasing strain on demand led services, particularly those that are statutory in nature and significant budgetary overspends
