*Figures marked with an asterisk are at times with reduced service provision due to the installation of mercury abatement plant.

Record numbers of cremations took place in the months of September, November and December. Likewise, the calendar year as a whole was the crematorium's busiest ever.

However, January 2016 seems set to be the have the fewest cremations for that month since 1989 (excluding 2012, when the crematorium operated on reduced capacity).

Apart from $21^{\text {st }}$ January, every forthcoming date has service times available.
Service time availability is available on the crematorium website.
