**Summary** The Covid-19 health emergency has been ongoing for over a year when Newport received its first reports in February 2020. This crisis has impacted all communities and businesses across Newport as the City has continued to adapt and respond to the necessary restrictions to minimise the spread of the virus. Newport Council's response has been to ensure continuity of services with our strategic partners, support vulnerable residents across communities, support businesses and ensure the safety of staff. This report provides an overview of what action the Council has taken to date and the progress against the Strategic Recovery Aims.

Since the last Cabinet Report in April, restrictions have been easing with the Council and its partners continuing to monitor the Covid-19 cases in the City through its role at the multi-agency Strategic Co-ordination Group (SCG), the Council's Emergency Response Team (Covid Gold) and liaison with Welsh Government (WG) and Public Health Wales partners.

**Proposal** Cabinet is asked to consider the contents of the report and note the progress being made to date, the risks that are still faced by the Council.

**Action by** Corporate Management Team

**Timetable** Immediate

## Background

Since the last Cabinet Report on 7<sup>th</sup> April 2021, Newport Council and its partners have continued to monitor the Covid-19 cases in the City through its role at the multi-agency Strategic Co-ordination Group (SCG), the Council's Recovery Group (Covid Gold) and liaison with Welsh Government (WG) and Public Health Wales partners.

## NCC Covid-19 Response

In April Wales had continued to see further reductions in the Covid-19 case rate falling below 30 per 100,000 across Wales and the continued success of the vaccine rollout across the priority groups in Wales. The latest figures relating to Covid-19 cases and vaccination rollout can be accessed through the [Public Health Wales Covid-19 Dashboards](#). Over 1.5 million people in Wales have received their first dose of the vaccine whilst over 500,000 will have received their second dose. The Council, alongside Newport Live have been supporting the NHS with volunteers and facilities to help with the rollout of the vaccine. It is important that everyone including the City's BAME communities receive their vaccine and to also continue to follow the restrictions in place. Further information about the vaccine programme can be obtained from [Public Health Wales](#) and also includes Accessible information [here](#).

In consideration of the scientific data and as part of WG three week review process, further restrictions have been eased enabling the economy, schools and other sectors to re-open in conjunction with WG guidance. Since the last report in April, Wales has been slowly opening up and easing restrictions taking a cautious approach. In April and May depending upon the Welsh Government guidance it is planned for:

- From 26<sup>th</sup> April outdoor hospitality (pubs, cafes, restaurants); outdoor wedding receptions and outdoor activities were reopened.
- From 3<sup>rd</sup> May up to two families will be able to meet indoors with extended households with indoor facilities / activities such as gyms, leisure centres and fitness centres, children's indoor activities and community centres reopened.
- From 17<sup>th</sup> May indoor hospitality, cinemas, theatres and museums to reopen including organised activities such as wedding receptions allowed for up to 30 people.

Newport Council's services have continued to operate adhering to the restrictions in place. Many areas of the Council's buildings remained closed but front line services have remained operational. Residents and businesses can access the necessary information from the Council's [website](#) or contact the Council's contact centre.

## Newport Council Activity and Progress in delivering Strategic Recovery Aims

Newport Council's Recovery Group (consisting of the Chief Executive and Heads of Service) are continuing to regularly meet to monitor and report on emerging Covid-19 issues; and to support the Welsh Government and Public Health Wales in implementing necessary legislative changes. In June 2020, this Cabinet agreed its Strategic Recovery Aims that have enabled the Council to recover its services and support the City's communities and economy to recover in addition to its commitment in delivering against its Wellbeing Objectives set in the Corporate Plan 2017-22. As part of the Council's Performance Framework, service areas aligned their Service Plans 2020/21 to the four Strategic Recovery Aims as well as providing monthly updates to Cabinet on their ongoing response to the Covid crisis.

At the end of every financial year, service areas provide their end of year review of its performance which are presented to the Council's Scrutiny Committees and Cabinet. Service area reviews also support the Council's Annual Report which self-reflects back on its performance in the year, lesson learned and its plans moving forward. This year's Annual Report 2020/21 will include a reflection back on the Council's response to the Covid-19 pandemic and how we have delivered against our Strategic Recovery Aims, how we will move forward in the final year of delivering this Corporate Plan and developing the next iteration of the Corporate Plan from 2022. Remaining actions and work from the Strategic Recovery Aims will be incorporated into their service plans for 2021/22.

### Financial Summary

The Council's financial (revenue and capital) update is reported separately as part of the Council's budget management. ### Preferred Option and Why

1. To consider and note the contents of the report and for Cabinet / Cabinet Members to receive updates from officers as part of their portfolio briefings.

### Comments of Chief Financial Officer

Welsh Government have been supporting local authorities through the pandemic with a Hardship Fund intended to reimburse for all Covid related spend over and above existing budgets and within a set criteria. The fund also includes loss of income compensation; again, within a set criteria. The fund will run to the end of the current financial year. It is continually developing and evolving to support specific initiatives as and when required.

In essence, Covid related, eligible expenditure is predominantly funded by the WG. A revenue budget monitor to end of November was reported to January Cabinet and confirmed a positive overall position for the Council and included the impact of the financial assistance provided from the Hardship Fund as well as the normal and routine budget issues that affect the Council.

### Comments of Monitoring Officer

There are no specific legal issues arising from the Report, which provides an update on the actions taken to deliver the Council's Strategic Recovery Aims and progress since the previous report. Any legal issues will be picked up at the appropriate time as part of the operational delivery of the individual actions, within service areas. Since the last report, the numbers of cases being referred to TTP for contact tracing and the positivity rates have continued to reduce significantly, with the impact of the lock-down restrictions and the roll-out of increased testing and the vaccination programme. As the restrictions are relaxed, then further enforcement work will be required, to ensure that businesses continue to comply with the revised Regulations and guidance and that proper safety measures are in place.

## **Comments of Head of People and Business Change**

Newport Council has continued to build on the strong collaborative work through 2020/21. The Strategic Recovery Aims alongside the Council's Corporate Plan has enabled the Council to focus on its core delivery requirements whilst ensuring we comply with the Welsh Government and Public Health Wales legislation. The role of Civil Contingencies, emergency planning, and the Council's Test, Trace and Protect has been vital to ensure the risk to the City's communities are minimised and that the Council continues to deliver its services to residents and businesses.

The Council's supporting services and our partners are building on the advancements made to ensure we are able to operate safely and maintain the necessary social distance guidelines. The progress detailed in this report highlights the continuous work that is being made and build up resilience in the long term.

The HR implications are as outlined in the report as we continue to support the workforce through provision of equipment and a range of wellbeing measures.
